

## The Conjurers

Jorge Luis Borges \*

In the center of Europe they are conspiring.

The event dates from 1291.

These are men of various lineages, who profess different religions and speak in different languages.

They have made the strange resolution to be reasonable.

They have resolved to forget their differences and accentuate their affinities. They were soldiers of the Confederacy and later mercenaries, because they were poor and had the habit of war and did not ignore that all man's enterprises are equally vain.

It was Wilkelried, who sticks enemy spears in his chest. so that their comrades may advance.

They are a surgeon, a pastor or a solicitor, but they are also Paracelsus and Amiel and Jung and Paul Klee.

In the center of Europe, in the highlands of Europe, it grows a tower of reason and firm faith.

The cantons are now twenty-two. The one in Geneva, the last one, is a of my homelands.

Tomorrow it will be the whole planet.

Perhaps what I say is not true; may it be prophetic.

FAMILY MEMBERS PARTICIPATING IN THE H-F-CH GENERAL PROGRAM AND  
THEIR F-H AND CH-F WORK TEAMS,

Dear all Night and day of *The Three Kings*, 5-6 January 2022

We finally started organizing the information gathered from August 2021 to the date. As a whole it offers valuable data on our Genealogy, Documents which are fundamental for their abundance in ideas and proposals, and samples of methodological experiences to concretize and evaluate the programs of work with its Lines of Action, through timely follow-up.

From this *Control Tower* to visualize the flights of our dreams, longings and purposes, we will record the challenges to which the realization leads us of the General Program with its Work Teams, and the results always optimizable performances. With stands of Sun, at court level or as protagonists in the heat of the game, -the Big Game of our Family-, in this **Pdf 1** we show, with their colors, the various implements playful whose organization is essential to know the court, prepare the tactical, strategic and logistical moves that ensure us get ahead:

**First**, between pages to, there is a **Calendar** to record events. and details of the **Lines of Action** over time, which includes:

**FIRST SEMESTER \* JANUARY \* FEBRUARY \* MARCH \* APRIL 2022**

**Second**, the 'materials' are included in **followed** and **jumped** pages (hopscotch style) cousins' (which were the first, the raw material, the primordials elaborated by our *Cousins*):

MESSAGES. General information [9-13] [39] [41-42]  
GENEALOGIES. Information received. Organization [15-17]  
DOCUMENTS. 6 Dimensions: Analysis, proposals [19-34]

Responses and proposals of the CH-F / Morelia Team,

-2-

**Third**, some **Responses, comments and proposals from the CH-F Team Morelia** are added here and on some pages with texts framed in **red**. Thanks to Ricardo's documents, Len's messages, the very motivating ones of Uncle Daniel and the enthusiasm and participatory interest that we have all shown those involved, it has been possible to advance to the level in which we find ourselves; and on our part, to extend some proposals, initiatives, comments and *certain concerns*, such as the following:

**It is necessary to fully understand the conditions of age, working, mood and health that are determinants in all participants** (who we hope they are and continue to be the optimal ones), to opt for and assume the functions and activities to be decided. And always safeguard the Joy and the participatory enthusiasm that is *very contagious* (much more, and nothing to do with Covid-19) and unsustainable to solve – without clumsy rushes or atropemiento–, the intense, proud, sweet, loving, exciting (etc). tasks for the veneration of our Families:

**Scheduling of dialogues** (TelCel, Em, Zoom). According to the times that we have the members of the teams, to the relevance of the topics to be discussed, -without excluding anyone or boxing us in pre-established dates-, it would be feasible to formalize 1) *Broad Zoom Meetings of the Coordinators* and with those who like to add themselves, **every fifteen days** and when deemed necessary; 2) Em, calls and Whatsapp messages via TelCel, it is *healthy* to hold them permanent to promote colloquial and daily interfamily communication;

**Minutes**. Develop Ricardo's skills for its elaboration, because without the enumeration of data and factors is not possible to characterize the stages or carry out the **Analysis of Contexts and Conjunctures** to substantiate proposals, nor ensure the **Operability-Logistics** of:

**Lines of Action**, which we need to specify, interrelate and coordinate:

- > Those who started and drive the F-H Team in Michigan
- > The results in development of the CH-F Morelia Team
- > The derivatives of the **Six Dimensions** warned by Ricardo, and in his **Proposals**.

\*\*\*\*\*

**Travel Scheduling** and **Reciprocal Exchange** of **MtoM Visitors** and **MtoM** (from Michigan to Michoacán and from Michoacán to Michigan). **Obviously everyone can choose to travel and visit us whenever they wish: they will always be welcome because we always have the hope**

to see them. By conditions of age, work or school and family calendars, we propose the following Criteria, first, for a **Visitor Exchange Program**:

-3-

1) *According to the seasons of the year:*

**Solstice Visits** (Summer - Winter) In the months of July-August and December-January, the most ad hoc for children and young people who are the visitors priority, for all possible reasons to argue...;

**Equinox Visits** (Spring - Autumn) between March-April and September, October, respectively; for being the climatic months benign, especially for the 'young people of the third age' who are around 60 (or who exceed 70 and more), who constituted in fact a kind of **Council of Elders** (according to our ancestors), to which visitors will always be welcome of all ages who long to know memory, people and places of their ancestors... Of course, everyone will have their voice rights and vote, and to participate with their opinions, concerns and initiatives...

2) *According to the seasons and moods of the years, of the participants current and future:*

**Visits for the very sovereign desire and the pleasure of traveling**, for nostalgia, craving or simple curiosity...

**Visits for holiday trips, holidays, commemoratives, events multiple** (weddings of all kinds, baptisms, birthdays...). For more than thirty years, on September 15 we celebrate the Night of the Cry of Independence with a special dinner to taste the Chiles en nogada, the typical dish and traditional for that date: Everyone is always welcome because we all participate in its preparation!

**Coincident visits** for work reasons or educational performance...

**Passing visits**, occasional, because for any circumstance they walk in the Commuter...

### **Travel Scheduling 2022**

My apologies Lenny, I must have had a glitch in my computer. I went back and looked at them and they are fine. When I first looked at them they appeared out of focus and then kind of got in focus. I also now realize that the attachments were the same DVD, just the 2 separate parts. By the way I do have a couple of old apps that can digitize the DVD videos but of course they are much too large to email. Again, please accept my apology.

My wife and I really enjoy traveling. We have been to Mexico a number of times. We have a time share in Nuevo Vallarta (Paradise Village). From there we have driven to Tequila, Guadalajara/Lake Chapala, and areas north of Vallarta. We have also visited Spain (2x), Gibraltar, Morocco, Italy, Ireland, Scotland, England. And we have visited many parts of the US - California, Florida, New Mexico, Alaska, New England and many more.

- Produced the first family documentary Michoacán to Michigan in 1992. As part of the preparation I traveled to Morelia with my Uncles Dan and Martin to research and visit with relatives (Aurora, Chavela, Elvira/Arturo, Onofre, Samuel, Daniel, their families and many more). It was intended primarily for family and documents the story of Martina and Valeriano's journey from Mexico to Michigan in 1919. It uses previously recorded audio interviews of the two of them telling their story.

To honor and celebrate the 25th anniversary of the documentary and the 100th anniversary of their journey, we updated and revised the documentary with a team of family members. We held a Premiere at the Detroit Film Theatre (part of the Detroit Institute of Art). We filled the 1,100 seat theatre with approximately 300 extended family members and the rest with friends and the general public. The Mexican Consul General of Detroit, Fernando González Saiffe made a presentation.

Here is a description of the 2019 documentary - Press Release Michoacán to Michigan

The new version has been improved on many levels. Here is a link to the new 2019 version of the documentary Michoacán to Michigan

I am currently working with a team of family members to build a Fraga Family website. It is currently in Draft Phase and I hope to be able to launch it in the next month or two. I will definitely let you know when it's available. Besides connecting our extended family here in the US I would like to find ways to use it to connect on several levels with family in Mexico. I will discuss it more with you when we visit next month.

Hello!

I enclose the translation of the file that was sent to me yesterday.

Nice day

\*\*\*\*\*

**Valeriano** (Anthony, Tony) **Anselmo Fraga Sánchez**.

He was born on April 14, 1891,  
passed away on September 7, 1982

**Grandparents: Jesús Fraga and María Calderón**

\*\*\*\*\*

### Possible story:

The Fragas came to Mexico at some point in the early 1800s. Jesus' lineage was from Spain. The family was associated with the Viceroy Don Antonio de Mendoza, "Count of Valladolid", responsible from (for) the original name of Morelia (Valladolid), before it was changed to honor General Insurgent José María Morelos y Pavón, who fought for the Independence of Mexico.

His only son was **José, Valeriano's father**. José had three sisters: **Lupe, Paz and Socorro**.

**Jesús Fraga** [Valeriano's grandfather] had a brother named **Lamberto** who founded a town: **El Rancho de Jerécuaro**, which he sold to **the Ortega family**. There was another Fraga named **Acuixio** (Help?)

For his part, the brother of **María Calderón** [grandmother de Valeriano], **Antonio**, was mayor or important official of **Cotzurio**. The Calderóns owned the Largest ranch in Cotzurio. The ranch of the Chávez was much smaller

**Andrés Calderón** was very rich (I'm not sure if was Maria's brother or father). In the village of Cotzurio highlighted **5 families**: the Fragas, Chávez,

Calderón, Herrejón and Sánchez. The Sánchez family she was the owner of the farm called **Urundaneo**, which is he was close to **Chucándiro**. The Sánchez family was also in **Santa Rita** and **Santa Inés**.

There have been unconfirmed stories that there is 'Austrian blood' in Dad's lineage and 'French' in the from mom. If so, the lineage would have occurred around the 1860s, when the French invasion and occupation, which imposed as 'emperor' the Austrian Maximilian (of the Habsburg monarchy) who 'ruled' Mexico briefly before **being shot**. The Austrian and French soldiers were based in the Morelia area. But nevertheless, In Onofre's interview, he stated that the origin of the mother was Spanish and that she was related to the Calderóns, who "were wealthy." He also 'indicated that the Herrejón had no indigenous blood "and that" they were very fair. "

---

**Valeriano's parents:** José Fraga Calderón and Mercedes Sanchez Sanchez

---

#### **Some history:**

**José and Mercedes** were married very young. **Mercedes's father** was named **Santiago Sánchez**. Their surnames were Sánchez Sánchez thus, apparently a Sánchez had married a Sánchez. She came from a family of 24 children, but many died as children.

The children who lived were;

- Trinity,
- Sylviano (Silvino?),
- Juana (Mother of Rafael Cedeño),
- Mercedes,
- Lola (Dolores),
- Genavivo (Genovevo?),
- Avelina,
- Vicente,
- Luis (father of Pablo Sánchez),
- Ignacio,
- Reymundo,
- Rafael and Jesus.

## F-H / Em Genealogy Chronological Order

María, **José Fraga's** mother was a member of the Calderón family. One of his wife's sisters Mercedes married José's uncle, Antonio Calderón. That marriage produced some important people:

Andrés and Refugio Calderón who became very rich.

José also had two sisters named Guadalupe and Socorro and a brother. Jose was known for being very brave and very strong. It (He?) was also very violent. He killed some of the Vargas. They tended (?) him in an ambush. (I have no details)

### The children of José and Mercedes

- Antonia,
- Mepemciana (Nepomucena?),

Following the comments of Onofre's version,  
'Ernesto was very nervous and married a woman very kind and friendly. They had two handsome children and was very brave. They lived at *Rancho de la Carverona* (¿**La Carbonera**?), Near where Martina had lived. One night some thieves were trying to steal something from the ranch and Ernesto's wife went out to protect him and was killed. Later her children died, possibly from chickenpox or malaria; after Ernesto committed suicide very young.

woman told Ernesto that his wife slept with his uncle Jesus. Although this was a lie, since Ernesto's wife was very pure and honest. The woman who concocted the slander was in love with Ernesto, but he was not interested in her. She lied out of spite and jealousy, which caused his death. "

***Onofre's version of Uncle Ralph's patch:***

«Rafael was a very good man, very respected and very strong, polite and easy going. That day, all the world was very drunk after a party in Cotzurio. Rafael was trying to sleep, but outside, near the school, a rambunctious man started a fight and stabbed him in the eye with a knife. So he lost the eye and has worn an eyepatch ever since.

The other version is slightly different: Rafael inherited the courage of his father José, who was the chief of the town.

"He controlled the robbers with the palm of his hand."

Onofre's mother and uncle said that he put criminals in a large bag that was used for corn, tied it up and took them to the police for justice to be done.

Rafael was a good man and highly respected. One day, when people were partying, they got drunk and made too much fuss; Rafael asked them to leave in a friendly and courteous manner. But a man they called "The Devil" cut Rafael's face and gouged out one eye. He lived the rest of his life with one eye. He was never quarrelsome.

Onofre says that this happened in 1934 or 1935, during the presidency of Lázaro Cárdenas who was the responsible for distributing the lands (latifundios) to the farmer. Therefore, many Mexicans returned to Mexico from the U.S. (Onofre clarified the difference between a 'ranch' and a 'hacienda'. A ranch was generally one family and a hacienda was many ranches, with a farm).

I should point out that when we asked Onofre's younger brother Samuel about the patch on Uncle Rafael's eye, we got a totally different and more heroic story. His version had to do with that some bandits during the Revolution (1910-1924, a different time frame than the version of Onofre), they were trying to find out where they kept their horses to steal them and he did not tell them, so they gouged out his eye. Onofre's version seems more likely.

Onofre spoke of the Mexican Revolution, which began on November 20, 1910, which was the reason why Valeriano (my dad) left Mexico in 1919, and due to the thieves known as "sheaves (?)." The Revolution began when President Madero was assassinated, Onofre indicated that he was a good man. The new revolutionary groups were known as "Elevations". According to Onofre, "they had no objectives or purposes, they just went from city to city causing havoc." It was not possible to live in the small

towns nor in the rancherías. Many farms were burned. These "Alzados" seized Cotzurio. The people were very poor. They survived on the herbs that they were grown on the road.

Valeriano (Tony) Fraga was admitted to the hospital on 26 July 1982. He returned home on September 1 and died at 5:15 a.m. on September 7, 1982.

[The information collected here comes from material I received from my sister Frances (Esperanza) in 1992 and two translations different recent reports (of Anna Marie Valdez and Camille Fraga Von Dreele) from an interview that Lenny videotaped in Morelia, Michoacán, Mexico, with our cousin Onofre Chávez Fraga, also in 1992].

## MESSAGES Team CH-F 1/3 Greetings-Information Proposals

Morelia, Domingo 12 de Diciembre de 2021

Tío Daniel, primo Len,  
queridos familiares y amigos todos  
vinculados al Grupo Herrejón-Fraga-Chávez:

IT IS VERY PLEASANT AND INTERESTING to hold and follow up on the talks, messages and online conferences that we have established. All the documents that they have emerged we are integrating them printed on paper in the initial Folder 1 of our meetings last October, and digitized on the computer. As a whole, they form an informative stock that will be very useful to carry out many of the projects and concerns that we can undertake systematically here, in Michoacán and there, in the USA.

Dear Liana, appreciable Ricardo, your help to carry out family dialogue is of immense value. Largely we (Laura-josé) belong to a generation, culture and civilization fully inscribed still in the Gutenberg Galaxy. By conditioning professionals (history, literature, teaching, research, editorial work...), our creativity, communication and productive capacity is oriented towards books, texts, documents. Towards reading and writing. Are too bookish. That is why the emphasis we put on communication written and in its testimonial meaning, because at the age in which we find ourselves(66 and 72 years old, respectively), we consider that it is our waymore effective to be supportive to safeguard family memory and pass it on to current and future generations...

We are very happy for the punctual minutes that Ricardo sent, from the first meeting held last Sunday, November 28. Last Sunday 5 December, in my case (José), due to an overload of editorial work, it was not possible to participate fully or say hello to dearest Uncle Daniel! I hope that this Sunday the 12th (Day of the Virgin of Guadalupe), we can greet each other... [The Guadalupism in Mexico was and is of the utmost importance for our identity national. I (José) being absolutely atheist, respect and admire a lot

As can be seen, in Michoacán we have conditions and resources enough humans to start our genealogical tasks:

1- We have already sent the proposal for the organization and work meeting that will be carried out before December 27, according to the times that have Alejandra Gálvez (Master in Biology, lawyer and translator), Arturo and Gabriela (outstanding professionals and enthusiasts of the genealogical project), Jaime Vargas Chávez (architect), Yolanda Chávez (Chemist-Pharmacobiologist), who received us at the Hacienda de Aparanguero and the team of Jitanjáfora (Andrea, Yael, Laura and José). The agreements and programs that we elaborate we will send them to you;

2- We are prepared to go to Cotzurio on December 27, for the interview with Sra. Amparito and the Family of Paulín Cisneros (some related to the Herrejón-Fraga family);

3- Subsequently, we will return to Cotzurio next January, to fine-tune the inquiries;

4- In José's hometown (Cd. Camargo, Chihuahua), we located information about a part of the Herrejón Family that settled there, about the which we already requested information from the local Historian, teachers and friends of the location;

5- In January-February 2022, we will go to El Colegio de Michoacán (in Zamora, Michoacán), to interview Dr. Carlos Herrejón Peredo in History, former director and researcher of that institution, who has published and conducts important historical-social inquiries about our region. (Yeri Paulina, Doctor in Anthropology, Laura-José's youngest daughter, is starting her Postdoctorate in Anthropology also at that College, where he received his doctorate in History our son Vandari Manuel, with his study published there, on the History of Patents in Mexico in the final period of the 19th century and the beginning of the XX);

6- With Gaby, Jaime and friends, we will begin to spread M to M in various institutions and cultural associations of Morelia, Michoacán and Mexico. With the new government in Michoacán and its dependencies that serve the Michoacán Culture and Emigration, we believe that we will achieve

basic supports (at least some receptivity) to spread M to M and our pertinent genealogical works to make them public, prior agreement with you...;

7- Alejandra is very motivated to subtitle in Spanish M to M, in addition we will have the advice of the teacher Elisa Heredia Correa, professional translator, former head of the English Department at the Universidad Latina de America (Morelia), who studied and lived for decades in the USA. Still, we will need your technical support for translation and subtitling. About, we will agree on it in our first meeting of the Chávez-Fraga Team, and in the following of the Herréjón-Fraga-Chávez General Program;

8- We are also preparing to organize a highly professional, who provides super-necessary and achievable proposals, to promote the Integral Development of the Region where our families come from (Cotzurio-Aparangueo-Chiquimitío).

9- Soon we will be informing you about a Second Meeting Cultural that we have in mind to carry out on April 22, in Cd. Camargo, Chihuahua. If the Covid-19, the Omicron, allows us..., in which we will spread M to M and our activities (I wish some of you would join us!, to be carried out...). We attach general information in PDF's by Em.

Finally, with our greetings and blessings, we hope you will make us get their biographies, autobiographies, life stories and whatever is pertinent for the family to know, or edit and publish, if they consider it so! Merry Christmas and Happy New Year 2022, Friends...!

*Thank you Uncle Daniel, Len, Liana, Ricardo... An Enormous Love of the Morelians.*
