

***Moments & Memories of***  
**Johnny Fraga/Martin Fraga**

**By Dawn Fraga Tiffin**

I have to share this moment that just happened.

I woke up this morning and I have been making homemade books and was drawn to photos I have of my cousin Johnny Fraga who was in The Rockets Band back in the 70's. I decided to make a book about the history of the Rockets with some photos.

Another part to this story is my dad loved music and always supported Johnny and would go and see him play.

My brother, Ed told me today that Johnny had told him at a family picnic that dad was a great influence in him getting into music. With all this said, my brother Ed asked me when did Johnny die? Well, I didn't know so I looked it up in our Fraga Family Tree and, to my surprise it was the same day my dad died - September 27, 4 years apart from each other.

Ed then asked me to see when Johnny's birthday is and, again to my surprise, it is today July 1st. Well, needless to say I got chill bumps.

Here is a link to a video of the book I made in honor of my cousin, Johnny Fraga's birthday and in remembrance of my beautiful dad, Martin Fraga
